PremVispute

Mumbai, India

SUMMARY

Experienced in software engineering, full stack development, and front-end engineering for 2+ years. A professional merging creativity and technology, consistently infusing innovation into projects. Primarily worked with MERN stack with a knack for traveling and reading on the Internet for latest technological developments.

SKILLS

ReactJS/Redux NodeJS SQL/MongoDB TypeScript Java GitHub Microservices Docker Agile
Python AI/ML Transformer Models(Hugging Face) Natural Language Processing (NLP) Tokenization
nltk/spaCy simpleRAG ExpressJS HTML5/CSS3 Javascript/Jquery REST API NextJS NestJS

PROFESSIONAL EXPERIENCE

Golden Legands Leasing and Finance

Front End Developer

July 2024 – Ongoing

Mumbai, India

- Led the development and management of 4 different websites in the organization. Worked on technologies like Typescript, React JS, Next JS as well as React Native on the Front End. Also developed some backend Rest APIs using NodeJS and MongoDB and Firebase. 2 of the projects include a complete LMS (Loan Management System) and a payment gateway integration.
- Tech Stack: Typescript, ReactJS, NodeJS, NextJS

M2P Fintech Pvt Ltd

SDE 1

July 2022 – July 2024

Mumbai, India

- Worked on the UI of the Core Banking System (CBS) application using ejs, JavaScript, and jQuery for Turing 3.0, focusing on optimal performance and responsiveness. Led the migration of Turing 3.0 UI to React framework, introducing dynamic drag-and-drop architecture for enhanced agility, resulting in a 98% reduction in time for developing UI interfaces.
- Led a five-member team for the evolution of Turing 4.0 UI design with styled CSS, emphasizing visually compelling and user-friendly interfaces, offering mentorship, addressing obstacles, and playing an important role in task planning, assignment, and scoping.
- Contributed significantly to backend development using Java and MySQL, ensuring seamless integration and functionality.
- Tech Stack: ReactJS, NodeJS, JAVA, Javascript/Jquery, HTML/CSS

INTERNSHIPS

Nvest Solutions Pvt Ltd

Software Development Intern

Dec 2021 – May 2022

Mumbai, India

- Was tasked with web development for life insurance company websites, leveraged the C#.NET framework to craft intuitive and robust forms.
- Tech Stack: C#.NET, HTML / CSS

PERSONAL PROJECTS

AI model for answering questions based on a PDF input.

- Developed an advanced question answering system as a simpleRAG using Python, integrating nltk, and spaCy for NLP tasks and custom-trained word vectors for improved accuracy.
- Tech Stack: Python, nltk, spaCy, Hugging Face transformer (simpleRAG), Custom Tokenization

EDUCATION

BE in Information Technology

University of Mumbai

Dec 2021 – May 2022

CGPA: 8.7

Thane, India
